Learning About Your Technology User Groups

The Technology Support Team (TST) runs Learning About Your Technology sessions for Apple Users, Android Mobile Phone and Tablet Users, Windows PC Users, Microsoft Word Users, Digital Photographers and Photo Editors and Presenters. Attendees bring their own devices to sessions. AC Power and Broadband access via WiFi are available.

All sessions are run as user groups. Attendees bring problems and questions to sessions—how do I do this particular thing on my particular device? Often solutions are found during a session. At other times, presenters research a matter and present a solution at a following session. During sessions, attendees sometimes identify specific topics they want to learn about in some depth. These are covered in one or more subsequent sessions. To join a group or obtain more information, please contact a TST member associated with the session (listed below) or simply come to a session.
